

catcher entrance  
(in the hole)

catcher waiting on deck.

**Finish Line area**

New  
(Optional)

Catcher  
area if  
using

**NEW:**

- Recording sheets get handed in to the gate person at the START LINE. Running order will be posted at both start & finish line.
- If your dog actually chases the bag you may release your own dog then pick the dog up at the new catch pen at the start line area. You do not need a separate catcher.
- If your dog is hard to catch, the catch pen will be closed in that new start line pick up area once the dog chases the bag into it. Pick up dog at this new catch pen area.
- If your dog needs a catcher at the finish line that is still fine, nothing changes for your team.
- New teams will still be able to let the catcher travel the path the bag takes from start to finish line to show dog where catcher went.
